

ASSEMBLAGE 2.0

Artisanale

ASSEMBLAGE 2.0 by Andra Handric takes us into the world of fashion and textile design. An installation that highlights the protection-fragility binomial of this moment to make us reflect on ourselves as well.

ANDRAHANADRIC studio is an international brand, established by IED Alumna Andra Handaric in high-end avant-garde fashion design since 2015. "Black Clothes White Souls" embodies the nucleus around which the brand develops its values, focusing on the inner particularities of individuals, freedom of self-expression through a whimsical universe of shapes and textures.
